Made in beijing china

Beijing Smile Laboratory Equipment Co., Ltd.

Can be Customized
Laboratory Furniture

SMILE

Focus on Laboratory
Products for 17 years

17 Years of Manufacturing

3000+ Labs Outfitted

States Scope Served
130 Countries 50 US States

Multiple styles to choose from
making your laboratory stand out

Novo Nordisk Pharmaceuticals

Material description:

- 1、 Countertop: Made of 304 stainless steel, with environmentally friendly particle board padding on the back;
- 2、 Cabinet: Made of 1.0mm thick high-quality rust-proof galvanized steel plate, the outer layer is made of plastic powder baked at high temperature, making it bright, rust-proof and anti-corrosion;
- 3、 Accessories: Basin faucets, drip racks, and gas valves are of the Chinese Keen brand.
- 4、 Cabinet accessories: Chinese brand DTC304 stainless steel hinges and slide rails

Project case

National Center for Quantum Science Laboratory

Customized all-steel laboratory furniture that can be tailored to the laboratory's specifications

Project case

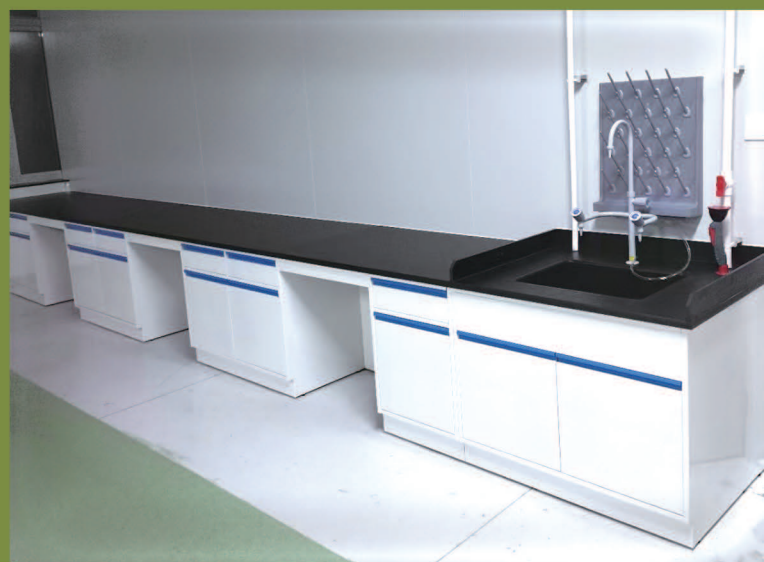

National Offshore Oil Research and Development Center

Project case

National Center for Disease Control and Prevention

Project case

National Cell Research Center

Project case

National Meteorological Research Center

Laboratory benches
tailor-made to your
requirements

Project case

Biosynthetic Research Center

Project case

Semiconductor Research Center

Project case

Semiconductor Research Center

Material description

- 1、 The whole body is made of 1.2mm thick 304 stainless steel, polished and welded.
- 2、 Accessories: Basin faucets, drip racks, and gas valves are of the Chinese Ke en brand.
- 3、 Cabinet accessories: Chinese brand DTC 304 stainless steel hinges and slide rails
- 4、 Socket: 110V 60Hz 3-hole American standard socket

Project case

Strong acid and alkali resistance engineering cases

Material description

- 1、 The whole cabinet body: made of 8mm thick PP material welded
- 2、 Accessories: Basin faucets, drip racks, and gas valves are of the Chinese Ke en brand.
- 3、 Cabinet accessories: Chinese brand DTC 304 stainless steel hinges and slide rails
- 4、 Socket: 110V 60Hz 3-hole American standard socket

All steel material
T1-L1500S fume hood

Specifications:

L1500mm*D850mm*2350mm

Cabinet body description: The cabinet body is made of 1.0mm thick high-quality galvanized anti-rust steel plate, bending and welding, and after the surface is pickled and phosphated, the outer spray epoxy resin powder sprays plastic.

Countertop: Uses a laboratory-specific high-quality 12.7mm thick black solid core physical and chemical board, which is resistant to acid and alkali corrosion.

Lining description: The whole uses 5mm thick Fate plate, which is resistant to acid and alkali corrosion.

Window description: Use 5mm thick tempered safety glass.

Balance instructions: The balanced lifting system of segmentless pulleys is adopted, and the windows can be parked at any position.

Exhaust hood: It uses PP black material exhaust hood.

Socket description: (2 sets) Use international standard universal sockets, (including leakage protectors)

Lighting instructions: Use hidden 30W and LED lights to illuminate.

Control switch: Uses touch-integrated control switch.

Stainless steel material
T2-L1500S fume hood

Specifications:

L1500mm*D850mm*H2350mm

The whole body is made of 304 stainless steel, which is suitable for highly corrosive laboratory environments.

Explosion-proof switches, explosion-proof LED lamps, and explosion-proof sockets can be installed

PP material

T3-L1500S fume hood

Specifications:

L1500mm*D850mm*H2350mm

Effectively solve strong corrosion experiments

PP MATERIAL

LABORATORY FUME HOOD

CORROSION
RESISTANT

ACID & ALKALI
RESISTANT

Purification type
T5-L1300S fume hood

Specifications:

L1300mm*D660mm*H2150mm

Can be customized for
different specifications

Commonly used products in
purification laboratories

Floor-Standing
Fume Hood

Activated carbon molecular filtration, SDG molecular filtration

Flame retardant
T6-L1500S fume hood

Specifications:
L1500mm*D900mm*H2350mm

Overall material:

Made of fiberglass abrasive
tools

Effectively solve
high-temperature and
high-heat experiments

Four-Standing
Fume Hood

Flame retardant fume hoods can be tailored to laboratory dimensions

Dust Type

T7-L1500S fume hood

Specifications: L1500mm*D950mm*H2350mm

Can effectively solve the dust problem inside the room

The vacuum box has built-in filtering device, motor and dust recovery box

Nuclear Medicine
T0-L1800S fume hood

Specifications:

L1800mm*D950mm*H2050mm

Commonly used environments:

Medical laboratories, isotope laboratories,
Radiochemistry laboratories,
Disease control radiation laboratories

Lead shielding is used on 6 sides, and the lead glass window blocks Y-rays. The thickness of the protection is calculated according to the nuclide activity.

Laboratory furniture series

Functional cabinet series

Yellow-flammable liquid fire safety cabinet

Red-combustible liquid fire safety cabinet

Blue-acid proof safety cabinet

All steel reagent cabinet

PP reagent cabinet

All steel gas cylinder cabinet

Smile Laboratory Equipment

Smile labFurniture&Equipment

Beijing Smile Laboratory Equipment Co., Ltd.

Sales Center: Room 1062, Fortune Plaza, No. 98 Gongchen Street, Fangshan District, Beijing

Production base: Furniture base in Sijianfang Town, Hua County, Anyang City, Henan Province
